

# Parmar Jyotiraditya Kamleshkumar

AI & ML / Generative AI Engineer

[GitHub](#) · [LinkedIn](#) · [23aipar039@ldce.ac.in](mailto:23aipar039@ldce.ac.in) · +91 93131 73264 · Ahmedabad, Gujarat · [@versatile\\_jimmy2110](#)

## EDUCATION

**B.E. (Artificial Intelligence & Machine Learning)** — L.D. College of Engineering, GTU, Ahmedabad

2023 – 2027 | CPI: 7.62

## TECHNICAL SKILLS

**ML & Deep Learning:** PyTorch · Neural Networks · CNNs · Backpropagation · Scikit-learn · Clustering

**GenAI / LLM Stack:** LangChain · LlamaIndex · Prompt Engineering · RAG · FAISS · ChromaDB · Tool Use & Function Calling

**Cloud & Pipelines:** Azure Data Analytics · GCP · HuggingFace · FastAPI · Power BI

**Programming:** Python · JavaScript

**Frontend / Full-Stack:** React.js · Next.js · Node.js · REST APIs

**Tools:** Git · GitHub · Jupyter Notebook · Google Colab · VS Code

## WORK EXPERIENCE & INTERNSHIPS

**Machine Learning Intern** — Cognifyz Technologies

Jun 2024 – Jul 2024

- › Implemented supervised and unsupervised ML algorithms — regression, classification, clustering — on real-world datasets with hyperparameter tuning and cross-validation.
- › Built data lake ingestion and transformation pipelines; exposed workflows as REST endpoints via FastAPI.

**Azure Data Analytics Dashboard** — Independent Project

Oct 2024

- › End-to-end Azure analytics pipeline covering data ingestion, transformation, and Power BI dashboard delivery with automated scheduled reporting.

## PROJECTS

**LuminateAI** — AI-Powered RAG Analytics Platform

[Live Demo](#) | [GitHub](#)

- › Transforms raw documents into structured analytical reports using multi-step LLM summarisation, RAG retrieval pipelines, and interactive visualisation dashboards.

**RepoMind** — GitHub Repository AI Assistant

[Live Demo](#) | [GitHub](#)

- › Natural-language interface for exploring GitHub repositories — indexes code, README, and issues via RAG so developers can ask questions and get precise, sourced answers.

**InsightForge** — Multi-Agent AI Data Intelligence Platform

[Live Demo](#) | [GitHub](#)

- › Multi-agent system that autonomously ingests structured and unstructured data, coordinates specialised LLM agents for analysis, and generates executive-ready insight reports.

**MAC-SPOT** — Real-Time Network Device Discovery Tool

[Live Demo](#) | [GitHub](#)

- › Python tool leveraging ARP scanning (Scapy) and OUI database lookup to discover all active devices on a network and map MAC addresses to vendor names in real-time.

## LEADERSHIP & ACTIVITIES

**Placement Coordinator** — TPO, LDCE — Bridge between students and recruiters; coordinate campus placement drives and mock interview sessions.

**President** — Innovator Club, LDCE — Led a 60+ member club; organised AI/ML workshops, data-science bootcamps, and HackSpring hackathon (200+ participants).

**Management Head** — MSA & GDGoC, LDCE — Directed community operations and coordinated Cloud and AI-focused events in partnership with Google Developer Groups on Campus.

**Fitness Influencer** — @versatile\_jimmy2110 — Instagram content creator promoting fitness, wellness, and an active lifestyle to a growing community.

## INTERESTS & SOFT SKILLS

**Interests:** Generative AI · Agentic AI · Deep Learning · Full-Stack Development · Fitness & Wellness

**Soft Skills:** Quick Learner · Problem Solving · Teamwork · Communication
